

Shelburne Retirement

June 2021

News

We will all be moving back to the dining room to one seating again. Based on the direction of the Ministry of Long-Term Care, we will be able to return to our previous dining plan.

We have also started outdoor visits again in our courtyard, ask to book a visit.

We will continue to have ice cream delivered room to room, bingo in the dining room and exercises in the hallway. There are also special days on our calendar for the resident to enjoy.

Note from Executive Director

Hello all, and welcome summer!

The home continues to prioritize infection prevention and control in the home related to COVID-19. We are all happy to see that resident's have more access to families with the announcement of the re-opening plan for Ontario.

We have had great uptake with vaccines in the home, which will help us work towards a more normal environment.

Rates for vaccination include:

Fully vaccinated Residents: 93%

Fully vaccinated staff: 77%

For information on how to get your vaccine, please visit
